## STREAM SVQ250F

### SUBMERSIBLE SEWAGE PUMP

#### SMALL PUMP. BIG PERFORMANCE.

The Stream SVQ250F is a compact and reliable submersible sewage pump designed for domestic wastewater, grey water and light sewage applications. With a vortex impeller design, It provides excellent solids handling and clog-resistant performance.

#### KEY FEATURES

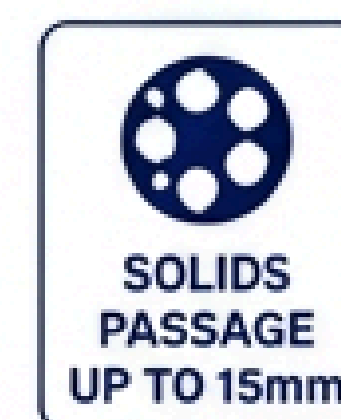

- ✓ Vortex impeller for non-clog operation
- ✓ Handles solids up to 15mm
- ✓ Thermal overload protection
- ✓ Float switch included
- ✓ Corrosion resistant construction
- ✓ Continuous duty operation
- ✓ Maximum immersion depth: 5m
- ✓ Maximum liquid temperature: 40°C

#### TECHNICAL SPECIFICATIONS

	MODEL	SVQ250F		MAXIMUM HEAD	7.5m
	POWER	0.25kW		SOLIDS PASSAGE	15mm
	VOLTAGE / FREQUENCY	220V / 50Hz		IMPELLER TYPE	VORTEX
	OUTLET SIZE	32 / 40mm		PROTECTION	THERMAL OVERLOAD
	MAXIMUM FLOW	150 L/min		MAX. IMMERSION DEPTH	5m

#### APPLICATIONS

- Domestic Wastewater
- Septic Tanks
- Grey Water Systems
- Drainage Wells
- Sump Pits
- Small Sewage Systems
